GUARDIANS OF THE PUBLIC HEALTH

Long before the days when one could step into a drug store and buy a medicine, already compounded and neatly packaged, many of the fine old New England physicians were using in the treatment of their cases the same remedies which now are sold under the Winsol

For more than three-quarters of a century the medicinal preparations made by B. O. & G. C. Wilson have been safeguarding the health of New England-

And the reason you can buy these splendid medicines in any drug store today is because they proved so unfailingly helpful that the story of the effect of their use spread from one person to another, creating a demand for them that has grown rapidly with the years.

As far back as 1845, when the drug business of B. O. & G. C. Wilson was housed in a small store in Central Street, Boston, people sent from all over New England to this little shop for the goods the Wilsons prepared so skillfully from the formulas which, even then, physicians had been using successfully for 25 years. Physicians today are prescribing the Winsol remedies they have always found so beneficial.

Before the Massachusetts State Board of Health established its present well-equipped laboratory, pow-dered drugs prepared by the founders of the Winsol business were adopted as the State standard of purity. This distinction was peculiar and significant in that it was enjoyed by no other house.

And, when the United States Pure Food and Drug Act went into effect in 1906, to meet the new requirements, not a single change in B. O. & G. C. Wilson preparations or labels had to be made. Winsol products could not be better or purer than they already were.

Now, druggists everywhere sell these same remeeles-which members of the third and fourth generations of the Wilson family still compound according to the old, time-tested formulae, and with the same care that earned so remarkable a reputation for B. Q. & G. C. Wilson products in bygone days.

When you want a tonic, liniment, cough syrup, toilet goods, a hot water bottle, or any drug specialty, insist on Winsol products. They are absolutely guaranteed by a house known for over three-quarters of a century for the purity, high quality and proven efficacy of its medicinal preparations, and for fair and square dealings in every transaction.

Every Home Medicine Chest Should Contain Neuropathic Drops

One of the famous Winsol preparations which had been used in a physician's private practice for 23 years before it was prepared in quantity by B. O. & G. C. Wilson and placed at the disposal of the public. And it has been known and used by the public in England, Canada, Australia and the United States for seventy-five years or more,

There should be a bottle of Neuropathia Drops in every home, for it is a powerful, quick acting stimulant, made from the finest vegetable drugs, and absolutely free from opium and other narcotics or harmful drugs,

Neuropathic Drops will break up a cold and prevent grippe, influenza and pneumonia. Used both externally and internally, it is an excellent remedy for sorethroat. It quickly and safely relieves colic, cramps, etc. Applied externally to burns, it removes the fire and sting in a few migutes, and prevents blistering.

It gives immediate relief from the pain and irritation of ivy poisoning and insect stings; helps heal indolent sores, is an unexcelled liniment for sprains, strains and bruises. In fact, wherever inflammation is present in any form, Neuropathic Drops is an ideal remedy, and has justly been called "the remedy of a hundred uses."

Sanalt---The Sensible Tonic

Physicians generally acknowledge that 95% of human ailments is caused by intestinal toxaemia, or auto-intoxication-the absorption into the blood-stream of poisonous substances which should have been eliminated from the system. . .

The continued absorption of these poisons ultimately causes Arterio Sclerosis (hardening of the arteries), rheumatism, Bright's Disease and diabetes. But Sanalt, by gently removing the cause, has eliminated many of the ills caused by long standing cases of intestinal poisoning. Sanalt is another of the Winsol preparations with nearly a century of cures to its credit.

Being compounded of the most valuable vegetable alternatives known to medical science, Sanalt acts on both the secretive and excretive organs, stimulating digestion and assimilation of food, and elimination of harmful waste matter, thus cleansing and purifying the blood and thoroughly revitalizing the body,

Cerizane Balsam---tor Coughs.

Not a syrup, but a balsam which aids expectoration, relieves the feeling of tightness in the chest, re-moves congestion from the lungs and imparts strength and tone. Healing and soothing. Contains no opiates, narcotics nor other harmful drugs,
